## ALLVIS 311

ALLVIS measuring arm and software are based on a new generation of modern measuring technology.

The efficient and easy to use measuring arm in combination with the market's best available database of vehicle data sheets, gives you an affordable world class measuring system.

With ALLVIS software you have access to more than 6000 vehicles data from over 70 manufacturers online.

### ALLVIS ADVANTAGES:

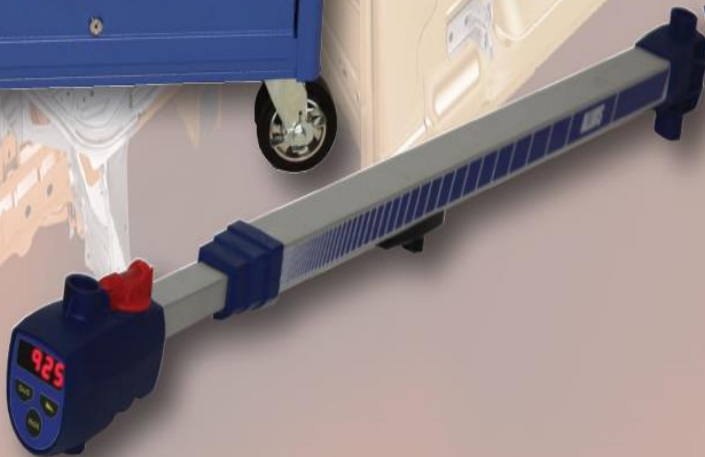

Easy to use and operate, only minutes to set up.

Produces documentation through printouts or electronic file.

Online database update with approx 300 new models per year.

Installation and start up training by certified ALLVIS dealer.

Can be used on most pulling benches and hoists.
